12	Flexible Industrial Bulk Containers (FIBCs)	37	Wooden Furniture
13	Passenger Motor Cars	38	Cyclic Amides & Chemical Derivatives
14	Vannamei Shrimp	39	Pharmaceutical Chemical Compounds
15	Aluminium Ingots	40	Automotive Gearboxes
16	Aviation Turbine Fuel (ATF)	41	Men's Cotton Shirts
17	Aircraft & Helicopter Parts	42	Iron & Steel Articles
18	Basmati Rice	43	Granite & Natural Stone Products
19	Gold Jewellery with Diamonds	44	Antihypertensive Medicines
20	Ceramic / Vitrified Tiles	45	Coffee (Other Robusta Grades)
21	Defence & Ordnance Products	46	Industrial Vehicle Tyres
22	Electrical Switchgear Parts	47	Fresh Grapes
23	Ferro-Silico-Manganese	48	Pyrimidine-Based Chemical Compounds
24	Virginia Tobacco	49	Cotton Nightwear & Pyjamas
25	Pharmaceutical Intermediates	50	Cotton Apparel Products

MAJOR EXPORT SECTORS

1. Energy & Petroleum

Automotive diesel fuel, aviation turbine fuel and other refined petroleum products form the largest export segment.

2. Electronics & Technology

Major exports include smartphones, telecom equipment, electrical converters and electronic components.

3. Pharmaceuticals & Healthcare

Europe imports a wide range of Indian medicines, pharmaceutical intermediates and specialty healthcare products.

4. Automotive & Engineering

Key exports include vehicle components, industrial machinery, gearboxes, tyres and engineering goods.

5. Textiles & Apparel

India exports cotton T-shirts, shirts, dresses, baby garments and other apparel products to European markets.

6. Agriculture & Food Products

Important exports include basmati rice, coffee, tobacco, grapes and processed food products.

7. Seafood

Shrimp, squid, cuttlefish and other seafood products represent a significant export category.

8. Gems & Jewellery

Cut and polished diamonds and diamond-studded jewellery remain major export earners.

KEY TRADE INSIGHTS

Europe is one of India's largest export destinations and a strategic trading partner. Petroleum products, electronics and pharmaceuticals dominate export value. Engineering goods and automotive components offer strong opportunities for industrial cooperation. Textiles, food products and seafood remain important sectors for diversification. Significant opportunities exist in clean technology, advanced manufacturing, healthcare and digital industries.
